EXPERIENCE

Web Developer/Marketing Director

Sep. 2023 – Present

Combined Major in Science Student Association

Vancouver, BC

- Led a team of **7 members** to develop the club's website, resulting in a **50% surge** in user engagement within the inaugural month of launch.
- Modernized the club's promotional website using HTML, CSS, and Javascript. Employed frameworks such as Three.js, Vanta.js, GSAP, and JQuery to create an interactive UI.
- Facilitated the onboarding of **50 individuals** into the club by creating promotional content for the Instagram page and optimizing the website's registration platform.

Software Developer Freelance

Jun. 2023 - Sep. 2023

Apptom Electronics Pvt. Ltd.

Remote

- Developed frontend and implemented backend API for chat application, seamlessly integrating with **Socket.io**, **Express.js**, **Moment.js**, and MongoDB for efficient data management.
- Successfully hosted the platform on **cPanel** and **WHM hosting service**, including DNS configuration for optimal accessibility.
- Engineered the backend infrastructure for **Google Authentication** and **Google Meet generation**, employing the **Google Cloud Platform**, MongoDB, and Moment.js to ensure secure and efficient functionality.

PROJECTS

HonkHonkHire ☑ | Express.js, MongoDB, Google Cloud Platform, Firebase, CohereAI Sep. 2023 – Sep. 2023

- Led a collaborative team to develop a MongoDB-awarded full-stack web app, showcasing strong teamwork through efficient task coordination and open communication.
- Integrated Google's APIs and MediaPipe, achieving 30% faster processing and 40% higher accuracy for speech and facial detection, enhancing app performance and user satisfaction.
- Leveraged OCR Space's API for universal resume text detection, facilitating recognition of resumes in any format, alongside Cohere-AI's Completion API for efficient question generation and answer analysis.

superT3 🖸 | Java, Advanced OOPs, Swing, JUnit, JSON

Feb. 2023 – Apr. 2023

- Designed and developed an advanced **ultimate tic-tac-toe game** featuring nested grids within a larger grid.
- Implemented a game state- saving/loading mechanism using JSON, allowing users to resume their games.
- Crafted a pleasing user interface using Swing with carefully chosen contrasting colors for enhanced accessibility.
- Conducted comprehensive unit testing of the game using JUnit, ensuring thorough coverage of all functions and scenarios.

Portfolio ☑ | React, React-3-Fiber, Three.js, Spline, Moment.js

Mar. 2024 - Mar. 2024

- Crafted with cutting-edge technology, the website offers an immersive 3D room model within a Macbook, integrating smooth camera animations powered by **react-spring and Tween.js** to enhance user interaction.
- Integrated **Spotify API** to fetch and display my current favorite song, adding a personalized touch to the user experience, while leveraging optimized **React components and hooks** for enhanced website performance.
- Meticulously optimized lighting and textures ensure a seamless browsing experience, resulting in a 15% increase in website performance and reduced load times, underscoring a commitment to user satisfaction.
